**RICTOR**

Company Introduction

Rictor is a brand specializing in intelligent short-distance mobility solutions, established in 2014. Main business involves manufacturing and selling products such as electric scooters, E-bikes and electric motorcycles. Its products have been sold in over 80 countries and regions globally, with hundreds of millions of users experiencing its consumer-grade and shared-grade products.

Combining our strengths in core technology development for three key electric components, supply chain management, complete vehicle manufacturing, IoT shared modules, AI-powered imaging systems and the establishment of shared vehicle networking operation platforms, we have garnered nearly 500 patents including inventions, PCT, utility models and design patents. We continue to dedicate ourselves to the research and development of new energy-powered two-wheel vehicles, integrating smart, technological and green travel into our company and product philosophy, offering a new choice for urban mobility.
